Just a reminder: All bills are due on the 20th of each month. If bills are not paid by this date a \$10 late fee is assessed.

Credit and Debit cards are taken and may assist you in avoiding this late fee.

In an FCC Order released on June 8th, forbearance was granted for relief from application of USF contribution requirements for rural LECs offering broadband internet access transmission on a common carrier basis. Forbearance will be effective for the third quarter of 2018 beginning July 3, 2018, which coincides with the 2018 annual access tariff filings.

What this means to our customers:

The regulated portion of DSL (NECA tariff rates) used for transporting internet and video will no longer be subject to USF contributions starting July 2018 and therefore we will discontinue billing FUSF on all DSL services effective July 3rd, 2018. This will result in a price decrease of \$2.15 per month for our customers subscribing to both internet and video services.

IPTV Premium Package
Rates will be increasing \$5 on 7/1/18 due to increased programming costs.
